About Me

Experienced Senior Software Engineer with over 10 years in the technology industry, specializing in developing scalable online business tools and gaming applications. Proficient in AWS, ReactJs, Node.js, and Typescript. Adept at leading cross-functional teams, implementing cybersecurity best practices, and driving continuous improvement in software development processes.

Professional Experience

Senior Software Engineer

Naka · Hybrid (London, UK)

02.2021
ongoing

Description

Lead the development of innovative online business tools that enhance client operations and drive digital transformation.

Responsibilities & Contribution

- Designed and implemented scalable cloud architectures using AWS services, improving system reliability by 30%.
- Developed dynamic front-end interfaces with ReactJs and Typescript, enhancing user experience and engagement.
- Built and maintained robust back-end services with Node.js, ensuring seamless integration with third-party APIs.
- Mentored junior developers, fostering a culture of continuous learning and technical excellence.

Technologies

AWS	ExpressJs	Kubernetes	Github Actions
ReactJs	Typescript	Splunk	MongoDb

Software Engineer

Tataka · Onsite (Manchester, UK)

02.2021
06.2018

Description

Contributed to the development of cutting-edge gaming applications, focusing on performance optimization and user engagement.

Responsibilities & Contribution

- Developed multiplayer game features using Node.js and real-time communication protocols, enhancing player interaction.
- Optimized game performance, reducing load times by 25% and improving overall user satisfaction.
- Implemented security measures to protect user data and prevent cheating, adhering to industry cybersecurity standards.

- Participated in code reviews and agile ceremonies to maintain code quality and project timelines.

Technologies

Typescript	Java	NodeJs	Docker
MongoDb	SpringBoot	ExpressJs	Tailwind
